DPB-5900T BACKPACK BLOWER

Elevate your landscaping game with the DPB-5900T Backpack Blower, engineered for the most demanding professionals. Delivering an impressive 795 CFM and 195 MPH airflow, this powerhouse features exclusive MAXOUT® technology delivering maximum power output for the duration of the battery charge. One key advantage is ECHO's unified battery platform, offering seamless compatibility across all ECHO equipment, eliminating the need for tool-specific batteries.

The triple battery port design ensures extended runtime, while the LED grip control display provides instant, precise information on charge status and which ports have batteries installed. It comes kitted with three 8Ah batteries and two dual-port rapid chargers, ready to take on the toughest jobs.
