DSHC-2600

SHAFTED HEDGE TRIMMER

The ECHO DSHC-2600 Shafted Hedge Trimmer is engineered for professionals who demand precision and power. ECHO's MAXOUT® technology delivers maximum power output for the duration of the battery charge, giving you consistent power when you need it most.

The 21-inch double-sided, double-reciprocating RazorEdge® blades, with three sharpened edges, slice through foliage with ease, while the 7-degree angle provides optimal spacing away from material being cut, perfect for shaping complex landscapes. Equipped with a flanged front-grip and a powerful top-mounted motor, this trimmer delivers gas-like performance without the emissions.

HIGHLIGHTS:

The image shows three icons representing usage levels: 'MODERATE' (a white trapezoid), 'PRO' (a white trapezoid with a black outline), and 'PRO X' (a black trapezoid). The word 'USAGE' is written in a stylized font above the icons.

MODERATE PRO PRO X
